Enumerator: Before the interview, fill in all rows of S26a, S26 and S27 using the Sample List. Fill the first four rows of S26a with the four lowest [f??] peer codes (f2, f4...). Record the peer FG member's name in S26 and the peer household's common name in S27. If the respondent for this interview is one of the listed [f] peers or if any [f] peer has attrited (dropped out of the survey), substitute with the next available [f] peer code and names. Similarly, fill in the last four rows of S26a with the four lowest [n??] codes, recording instead the primary respondent's name for that household in S26, and the household's common name in S27. If the respondent is an [n] peer or any [n] peer has attrited, substitute the next available [n] code and peer name, if available. If there are no more [n] codes, substitute the next available [f] code.

Conduct this interview with the member of the sampled farmer group. If there is no farmer group member, conduct it with the mother or female caretaker with the most children ages 5-7. First ask question S28 for each person, and then proceed across rows.

I2. ASSETS IN 2007

We now want to learn about the assets you and your household members owned two years ago, in July 2007.

Enumerator: Review the list of assets for this household from the baseline survey data. You will be given a separate paper with the 2007 asset data for this household. For each asset on that paper, tell the respondent the asset quantity and value their household reported in the baseline survey. Then ask questions I06-I08 about the portion owned in 2007 by the household head and spouse.
